

- I like the singleton design pattern in ABAP

— Be aware that some people don't

- I don't care - it works for me

- like getters (& sometimes setters)

COURT REPORTERS ARE AVAILABLE

I  CARE

You can implement business logic however you like...
just remember the first & second rules of reusability

CODE PATTERNS FOR REUSABILITY

- I like the singleton design pattern in ABAP
 - Be aware that some people don't
 - I don't care – it works for me
- I like getters (& sometimes setters)
 - Be aware that some people don't
 - I don't care – it works for me
