These code patterns can apply to all actions - but will focus on consumption

GET\_ENTITYSET is more complex because it needs to support Data query options

CDs views (NMV7.40SP8) provide other assumptions

# WARNING – FOCUS ON CONSUMPTION

These code patterns can apply to all actions – but I will focus on consumption

GET\_ENTITYSET is more complex because it needs to support oData query options

CDS views (NW 7.40 SP8) provide other consumption options

**WARNING – I DO NOT HAVE ALL THE ANSWERS**
