OData Query Options

The OData query options supported by SAP NetWeaver Gateway belong to either of these categories:

- They are automatically available in the framework, no further actions needed by development.
- They are available, but they require implementation efforts from development.

OData Query Options	Additional Implementation Needed
\$select	no
\$count	no
\$expand	no
\$format	no
\$search	no
\$skiptoken	no
\$value	no
\$orderby	yes
\$top	yes
\$skip	yes
\$filter	yes
\$distinct	yes
\$skipcount	yes
